## The Digital Labor Imperative

Stanton Jones  
Research Director and Principal Analyst

# What is Digital Labor?

A virtualized human workforce — working faster, with better quality, for less cost

**Level 1** Digital Workforce  
Automates standard, repeatable processes

- Structured data – think spreadsheets
- Key Technology: RPA
- Rule-based process – like HR and F&A

**Level 2** Digital Workforce  
Designed for variations

- Semi-structured data – invoices, help-desk tickets
- Key Technology: Expert System
- Data that changes quickly, and requires a decision such as in IT operations or in fraud detection

**Level 3** Digital Workforce  
Machine learning for faster, better problem solving

- Unstructured data – e-mail and chat
- Key technology: Machine learning
- Starting to see many proof-of-concept projects emerge

# Market Rewards Providers Who Grow in Two Ways

## Pricing pressure on big providers due to growth in Digital Workforce

- Digital Labor impacts the bottom line.
- Need to grow digital labor faster than downward pressure on rates.
- Digital labor scales up quickly enabling smaller providers to compete for big business.

**But digital workforce productivity improvements are not enough!**

ISG Insights™

# 4Q/FY 2016 ISG Index - Global Summary and Outlook

## Summary

- 2016 Y/Y ACV increases 9%. As-a-Service solutions are the buyers' choice.
- Americas growth came from both traditional ITO and Infrastructure-as-a-Service; As-a-Service spending doesn't have to come at the expense of Traditional Sourcing.
- EMEA As-a-Service is in the early stages. Traditional Sourcing ACV has been uneven.
- Asia Pacific As-a-Service accounts for more than half of the ACV this year.

## Outlook

- We forecast double-digit Combined Market growth in 2017.
- Expect As-a-Service growth in all three regions, with momentum building in EMEA due to public cloud expansion.
- Traditional Sourcing will have to find its footing as spending moves to business-led digital initiatives.
